Overview

As a community initiative to harmonize the open-source movement, we, on behalf of Nepal, would like to apply for the event, UbuCon Asia 2023. Nepal is actively expanding its horizons and pursuing complete digital transformation. Hosting UbuCon Asia in Nepal will help attract attention towards the SAARC region, aid in global representation & promote an ecosystem of learning and sharing.

If we are given the opportunity to host, the event shall take place in Kathmandu, the capital city of Nepal, a UNESCO World Heritage Site. The valley is home to a number of ancient cultural and historical locations such as the Patan, Basantapur and Bhaktapur Palace Squares, the Swayambhunath and Boudhanath Stupas, the Pashupatinath temple and so on. Kathmandu Valley is not only a popular tourist destination but also the center of infrastructural & technological development in Nepal.

Objectives

The objectives of Ubuntu Conferences, such as Ubucon, are typically to bring together the Ubuntu community to share knowledge, collaborate on projects, and discuss the future of Ubuntu and open-source software.

Some of the possible objectives of Ubucon 2023 may include:

- Providing a forum for the exchange of ideas and knowledge among Ubuntu users, developers, and enthusiasts.
- Showcasing the latest developments in Ubuntu and related open-source software.
- Encouraging the use and development of Ubuntu and open-source software in Nepal.
- Building a stronger community of Ubuntu users and contributors in Nepal.
- Providing training and education on Ubuntu and open-source software.

It is likely that the actual objectives will be announced by the **FOSS Nepal Community** closer to the date of Ubucon 2023.

Transportation & Accommodations

All foreign attendees can fly to **Tribhuvan International Airport (TIA)** which is the closest international airport from the venue. Flights are available from all major Asian cities and connecting flights can be booked from most other cities. Visa acquisition is fairly easy from almost every nation in the world.

Transportation out of the airport to the venue or hotels can be hailed from the nearby taxi station or the bus station, which are both within walking distance (approx. 10 minutes).

As for living arrangements, there are many comfortable options in the area surrounding the location, top recommendations among them are listed below:

- **Hotel Kutumba (USD 50 - USD 70)** ~400 meters from venue
- **Hotel Greenwich Village (USD 60 - USD 70)** ~850 meters from venue
- **Hotel Himalaya (USD 80 - USD 110)** ~500 meters from venue

Local Support

We have the support of many groups and organizations within Nepal ranging from open-source communities such as NepalEHR, Postgres Nepal, FOSS Nepal, Ubuntu Nepal and Community Health Toolkit to government bodies such as Ministry of Communication and Information Technology (MoICT) & NAST.

Our team of dedicated volunteers are hard at work collecting more and more supporters to ensure the success of the event.

Event Promotion

The event will be promoted on all possible multimedia platforms, including but not limited to website, blogs, television, newspapers and various social media outlets. A special PR team will be appointed to boost social media posts and increase engagement with potential attendees.

Event t-shirts, mugs, stickers and other paraphernalia will also be made available as additional promotional materials.
